Understand the Risks • Use better practices

Hazardous waste disposal

Household hazardous waste like spent batteries, leftover paints, cleaning products and automotive fluids can have a major impact on our drinking water if they aren't handled properly. Store your household hazardous waste in a spill-proof container until your town's next hazardous waste drop-off event.

Find out about the next hazardous waste drop-off event in your municipality

- **Ottawa**
- **Leeds and Grenville**
- **Lanark** - residents of Lanark County are encouraged to look to your local municipal waste management process

For businesses contact your preferred private waste management firm.
