

Source Protection Committee Biographies

Mississippi-Rideau Source Protection Committee

Committee Chair

Ken Graham

Ken Graham has broad experience related to environmental protection and many years of service to his community in a variety of capacities. He served 20 years as an elected Smiths Falls Town Councillor and 11 years on the Rideau Valley Conservation Authority Board of Directors including three as Chair. Mr. Graham has also held Board of Directors positions at numerous other organizations such as the Leeds, Grenville and Lanark District Health Unit, the Smiths Falls Airport Commission, the Perth and Smiths Falls District Hospital, Smiths Falls Child Development Center and the Smiths Falls Heritage House Museum. In his professional career, Mr. Graham was a civilian employee of the Ontario Provincial Police, a Police Officer with the Smiths Falls Police Service and an Investigator with the Ontario Ministry of the Environment.

Municipal Representatives

Scott Bryce (*Municipalities with groundwater-based municipal drinking water systems*)

Scott Bryce was raised in the Village of Westport and has resided there for most of the past fifty years. After attending Queen's and Carleton Universities, Scott has enjoyed work experiences in the federal, non-profit and private sectors before accepting a municipal staff appointment with the Village of Westport in 1992. Since Westport is a microcosm for urban municipal services, the full range of management challenges have been present for this municipality of under a thousand people, including provision of electrical distribution and water and sewer services. Scott is committed to providing a strong voice for those municipal stakeholders that are supportive of multiple barrier protection, but also must address issues of policy implementation and program cost. Scott recently retired as Clerk/Treasurer for the Village of Westport, but remains active in a number of municipal service files including water and wastewater and electrical distribution.

Diane Smithson (*Municipalities with surface water-based municipal drinking water systems*)

Diane Smithson, is a Certified Municipal Officer who was hired in March 2018 as the Chief Administrative Officer (CAO) for the Town of Carleton Place. Prior to her new posting, she served as the CAO for the Municipality of Mississippi Mills for 20 years since its amalgamation on January 1, 1998 and as the Clerk-Treasurer for the Township of Pakenham for seven years. She holds a Bachelor's degree in Commerce from Carleton University and has pursued additional education by completing a Municipal Administration Certificate from Algonquin College and a Diploma in Municipal Management through AMCTO. While she was born in England, she currently resides in her long-time hometown of Mississippi Mills. While not at work, she volunteers for the Canadian Cancer Society and her local Church and enjoys reading, walking, and cooking. Her interest in serving on the Source Water Protection Committee is to

ensure there are appropriate policies and procedures in place for the protection of water sources for the communities served by these types of systems.

Eleanor Renaud (*Municipalities without municipal drinking water systems*)

Eleanor Renaud is a Leeds County farmer who has served the community, county and province on various boards and committees for the past two decades. She is also a municipal councilor for Elizabethtown-Kitley for 16 years. During this time Eleanor has spent 15 years as an AMO and ROMA board member. She also served as a member of TORC, AMO's Bill 170 task force, and the Eastern Ontario Smart Growth Panel. Eleanor served 20 years as an OFA board member representing Leeds County. She has proven herself to be an effective voice for rural Ontario municipalities as she understands their needs and challenges.

Michel Kearney (*City of Ottawa*)

Michel has 31 years of experience in the fields of civil engineering and hydrogeology. He worked 18 years for a local engineering firm before joining the City of Ottawa in 2002, where he now creates and interprets servicing policies. Michel has been involved with Source Water Protection since 2006; at first as a member of the technical advisory teams for the Assessment Reports for the Mississippi-Rideau and Raisin-South Nation Source Protection Regions, then as an advisor in the crafting of the Source Protection Plans, and now with the implementation team at the City of Ottawa. Michel also sits on the Raisin-South Nation Source Protection Committee as a municipal member.

Economic Sector Representatives

Peter McLaren (*Agriculture*)

Peter McLaren is a descendant of the McLaren family who settled in Lanark around 1820 from Scotland. He graduated from Kemptville Agricultural College and is currently operating the McLaren family farm. His interests in agriculture led him to join several local committees, including the Lanark County Soil & Crop Improvement Association, the National Farmers Union, the Steering & Review Committee of the Rideau Valley Rural Clean Water Program and the Steering & Review Committee of the Mississippi Valley Rural Clean Water Program. Peter has been a member of these committees over the past ten years and remains an active member today. Peter is the Provincial Director for Ontario Soil & Crop Improvement Association representing the Ottawa Rideau Region and is a member of the executive as 1st Vice President. Peter McLaren has served as Mayor and a member of Council for the Township of Lanark Highlands.

Wilf Stefan (*Industry*)

Wilf Stefan was raised in a farming community in Saskatchewan and has lived on a small farm in Beckwith Township for over 30 years. He has a BSc in Mechanical Engineering from the University of Saskatchewan and an MBA from Ottawa University. He lived and worked for a number of years in both Africa and Europe and has traveled and worked in Asia and Latin America. During his career, he has held various roles in industry sectors including water and wastewater treatment, mining, oil and gas exploration, high tech, food processing, and university research. He is currently Chief Operating Officer at Clearford Water Systems with

decentralized water and wastewater projects in Canada, the United States, India, Colombia, and Peru. Wilf is a member of the Professional Engineers of Ontario (P.Eng.) and is an active member of the Ontario Onsite Wastewater Association (OOWA), Water Environment Federation (WEF), the Water Environment Federation of Ontario (WEAO), and a volunteer member of the Canadian Ski Patrol. He enjoys cycling the back roads of Lanark County, cross-country skiing, and kayaking.

Drew Lampman (*Industry*)

Drew Lampman earned a Bachelor of Applied Science in Civil Engineering degree from the University of Waterloo in 1995 and is a professional engineer. He resides in the Rideau Ferry area. He has worked in the precast concrete, mining, construction, and manufacturing industries as a project and EHS manager. He has been involved with ground and surface water monitoring and improvements since 1997. He has worked with DFO, MNR, RVCA and MVCA on various projects. He is a trained ISO internal auditor and the Management Systems representative for ISO 14001 Environmental and OHSAS 18001 Health and Safety. He was elected as chair of the Ontario Mining Association Environmental Committee and was involved in the development of their Spill Prevention, Contingency Planning and Reporting for the Mining Sector document.

Claude Lloyd (*Small Business*)

Claude Lloyd was raised in Lanark County, where he currently resides in Beckwith. Mr. Lloyd attended the University of Waterloo where he received an undergraduate degree in Environmental Studies. Throughout Claude's career he has been an advocate for triple bottom line accounting, believing in the importance of protecting our social, environmental, and economic pillars of our society. Claude has been active in several environmental and social causes including WaterAid, The Canadian Cancer Society, Trees Canada, Nepean Wild Bird Care Centre and more. Mr. Lloyd has held various board and committee positions including Carleton Place Environmental Advisory Committee, Chair (Ottawa Chapter) TD Friends of the Environment Foundation, Ottawa Community Housing Board member and more. Currently, Mr. Lloyd is the President of SEE Sustainability Ltd., and a part time Professor who teaches a variety of environmental topics.

Public Interest Representatives

Randy Malcolm (*First Nations*)

Randy Malcolm was elected Chief of the Snimikobi (Ardoch) Algonquin First Nation. He represents the interests of the Algonquin people living throughout the Mississippi River Valley as well as the Algonquin Nation of Ontario. In May 2005, Randy was elected as an Algonquin Nation Representative (ANR) and sits with a team of 16 ANRs, a principal negotiator, a legal team and a Technical Advisory Group to work with the Governments of Canada and Ontario to negotiate a Land Claim Treaty for the Algonquin's of Ontario. The Mississippi-Rideau Source Protection Region falls within the Land Claim Area. Randy graduated from Algonquin College in Forestry and later in Electronics. He has spent several years working for the Ministry of Natural Resources and a number of years working in electronics repair in private industry. Randy is

currently working full-time for the Algonquin Nation on many aspects of the Algonquin Land Claim.

Carol Dillon (*Environmental*)

Carol Dillon is a rural resident from the Perth area with a long-standing interest in water. She has been an active member of the community-based Friends of the Tay Watershed since its inception and has served on the Board of Directors as co-chair, and as director of school programs and provincial liaison. Carol successfully used Ontario's Environmental Bill of Rights to draw attention to needed changes in water management in Ontario and in 2006 served on Ontario's Advisory Panel on the Ontario Drinking Water Stewardship Program. Carol has a Bachelor of Arts degree in Psychology and Sociology and a Master's degree in Adult Education. She conducted a successful management consulting business across Canada for 35 years. Carol brings academic background, career skills, volunteer experience and a passion for good water management to this appointment.

Roy Huetl (*Public/Environmental*)

Roy worked for 11 years in the water and wastewater industry at the Regional Municipality of York. In 2020, Roy retired from his position as Director of Water and Wastewater Operations. In this role, he was also the co-chair of the Water Wastewater subcommittee for the Regional Public Works Commissioners of Ontario. Prior to his municipal experience, Roy had other career paths (licensed master electrician and various management roles at Magna International). He continues to expand his interests and experiences. In 2021, Roy completed a Master's in Public Administration through Dalhousie University. Roy enjoys volunteering in his community of North Frontenac. He participates in many outdoor activities and values the importance of preserving our environment.

Beverly Millar (*Rural General Public*)

Bev Millar has been an effective, experienced advocate for rural citizens over the last 20+ years. She owns and operates SummerMill Farm, has a federal government job, and runs Main Street Consulting. She is a Director on the Greater Ashton Community Association, member of the Munster Community Association, volunteers on local community events, and provides small farm and business advisory services. She has owned and represented businesses in both rural and urban settings and has a comprehensive understanding of the many issues facing rural residents and businesses. Bev is past President of the Rideau Chamber of Commerce, past Chair of the National Capital Business Alliance (representing over 1500 rural and urban business interests) and a founding Director of ORCNet. She was a founding member of the City of Ottawa's Business Advisory Committee, the Mayor's Task Force on Red Tape, the Property Tax Assessment Taskforce, The Ottawa Marketing Strategy, the BR+E Rural Tourism Pilot and several other initiatives that give her a broad experience base. Formal education includes a Baccalaureate in Political Science from Carleton University, the School of Public Administration Public Service Studies Certification, the Federal PWGSC's IT Project Management and Carnegie Mellon University's Risk Management. She has served on the Mississippi-Rideau Source Water Committee since its inception.
